

Capstone & Internship Opportunity: GroupBuild

"We Are Legion", but we are not Anonymous. We are building a social advocacy platform where users remain anonymous, yet - Users aren't tracked, profiled and targeted by commercial or political manipulation- Meritocratic voting is real-time Have you noticed that – globally – Democracies are in retreat? Have you wished you could do more to help the disenfranch

- Current Dev-Projects:- Advocacy Group creation and promotion, with trust-calibrated roles- Ethical-AI inline content t
- Technologies Involved:- Frontend: React + TailwindCSS- Backend: Node.js / Express- AI Modules: Python (misinfo detecti
- Learning Outcomes:- Git-based open-source workflow experience- Principles of secure civic tech architectures- Real-wor
- This project isn't for you if you:- Dislike iterative road maps, or collaborative instructions- Fear ideological ambig
- Mentorship & SupportWe'll work with you and your school to align the dev-project(s) you take ownership of, with your i
- Timeline/ApplyFlexible start dates. Most students engage for 8–12 weeks, with expenses reimbursed, but short intensive

This is not the work of spectators, this is design for the defiant! Welcome to GroupBuild.
