

Advisory Board invitation for known-brands, copy text only, graphic files attached separately.

Dear [organization],

We invite [organization] to nominate a representative to the Groupbuild Advisory Board—a trusted circle of mission-align Groupbuild is not just another software platform for social media. It is a new way to create a digital commons—a place where few people are elite, but most people want their country back. Many feel disenfranchised by emerging, anti-democratic forces. The internet has become the primary source of education for most voters, and it is being used to polarize entire populations. While commercial interests profit from the constant bombardment of divisive click-bait, algorithms fuel social disintegration. We're building a space where people can speak freely, collaborate anonymously, and stand together—without being tracked, launched in the U.S. in late 2025, and expanding into sensitive global regions soon after, Groupbuild is anonymous by design. No personal data is ever collected—even for Advisory Board members, who are only ever identified by their organization's name. Groupbuild protects users—even during in-person events—by encrypting communications, spreading network traffic over multiple paths. We're building the last line of defense for digital-Democracy. We hope you'll stand with us.

Regards,

Rick Ballard ([www.linkedin.com/in/richardballard](https://www.linkedin.com/in/richardballard))

Current Publicly-Identified Front Person

Be part of a quiet revolution in how people organize, resist injustice, and protect their freedoms.

Amplify Your Mission—Stand alongside allies working to reimagine participatory democracy.

Shape Ethical Tech—Advise a new generation of social tools that evolve Democratic Reactivity, while prioritizing truth,

Strengthen Civil Society—us design our digital defenses, against authoritarian control, and data abuse.

Gain Visible Recognition—logo will appear on Groupbuild's homepage, Advisory Board gallery, and on your anonymous avatar

This is a light-touch, high-impact role with no bureaucracy, no fundraising, and no legal responsibilities. Just purpose

Join the Advisory Board chat Group, pinned top of Groups page.

Provide feedback or insights (1–2 hrs/month).

Participate in an annual strategy round-table (optional).

Approve your organization's logo and AnonID avatar.

Remain fully anonymous—no personal data is ever collected.

Your contributions will help shape a system where influence comes from integrity, not identity.

Groupbuild is founded on radical transparency, ethical AI, and the right to organize. Here's how:

Anonymous communication using behavioral reputation avatars (not surveillance).

AI-moderation that meta-flags content for civility, reason, and truth.

No commercial, political, or institutional control.

No ads, no data sales, no sellouts—ever.

Contributor-owned; every volunteer is a stakeholder.

Equal voting for contributors—no power for money, only influence by merit.

Open-source architecture, free for integration, we assist export into other platforms.

Moderation shared between humans and an opinion-neutralized, decentralized AI-mesh (BeAxa).

Every active user, from Advocacy Leaders to Advisory Board members, can obtain a unique AnonID—a symbolic identity that

No personal info required.

Logos only added for verified partner organizations.

External bots are never allowed—only verified-humans.

Users are permitted multiple AnonIDs, but all are verified for ownership and ethical consistency.

Civil behavior earns the AnonID avatar symbolic badges; antisocial behavior erodes them.

Users remain completely anonymous, but can choose to share identity offline.
